

Fleet management and driver compliance

Product overview

FleetUp Compliance is a fleet management software solution that keeps drivers compliant with FMCSA (Federal Motor Carrier Safety Administration) safety regulations.

FleetUp Compliance combines FleetUp’s industry-leading GPS tracking software with electronic monitoring of each driver’s ELD and HOS hours to ensure that they do not exceed federal regulatory limits.

FleetUp Compliance accurately tracks driver hours eliminating the potential of FMCSA violations and costly fines.

FleetUp Compliance provides continuous vehicle tracking, ELD and HOS status

The screenshot shows the FleetUp Compliance software interface with a table of driver status information. The table has columns for Driver Name, Contact, Driver Email, Vehicle, Status, Violations, Break, Driving, Shift, and Cycle. The table lists several drivers and their current status, including Brandon Cervantes, Bruce Willis, Carlos TEST, Erick Martinez, Fredys Garcia, Guy Guyford, Johnathon Doe, Jonathan Ro, Leonardo Pe, Route Test, Sam Smith, Test Test, and Usuario Prue.
