

Real-time precision vehicle tracking

Product overview

FleetUp Standard is a fleet management software solution that combines precision GPS vehicle tracking with advanced geofencing, and detailed trip reporting features.

FleetUp Standard updates the exact location and movement of all of your vehicles - heavy duty and light trucks, vans and passenger vehicles every 10 seconds.

With FleetUp Standard, knowing exactly where your valuable fleet assets are going and when they will arrive is just a simple mouse click away.

FleetUp Standard's Advanced Map feature displays the location and movement of your vehicles

Core features

FleetUp Standard includes an impressive array of core features that make managing your fleet faster, simpler and more intuitive than ever before:

- Real-time GPS tracking with 10 second updates
- Vehicle inventory displayed on map for easy reference
- Advanced map with live view, trip history, and data sharing
- Custom tracking and monitoring alerts
- Geofences with detention time, transit time analysis and entering and exiting alerts
- Live ETA, trip history and account sharing
- Customized location alerts
- Mobile app for fleet admins and operators
