

4CJ

Containers, trailers and chassis tracking with theft protection

Product overview

FleetUp 4CJ provides GPS location tracking and theft protection for large assets such as containers, trailers and chassis.

The 4CJ is the industry's only tracking and security device that provides true, real-time security protection.

Its SmartLock technology immediately sends text and email messages to the FleetUp platform if any tampering or unexpected movements are detected.

The 4CJ provides an unrivaled level of cargo security and theft protection for containers, trailers and chassis from their point of origin to their destination.

Hardware features

- Magnetized enclosure
- IP67-certified
- SmartLock technology with RFID
- Solar charger option
- Easy, "no tools required" installation
- Operates in harsh environments
- Theft detection and tamper-proof
- Ensures extra long-term battery life

Software features

- GPS updates every 10 secs
- Suspicious movement detection
- Dynamic geofences
- Custom alerts
- Battery life monitoring
- FleetUp mobile app support
- "Best in Class" location tracking
- Protects against theft
- Optimizes safety and efficiency
- Keeps staff better informed and productive
- Prevents unexpected power loss
- Remote management from anywhere

Containers, trailers and chassis

FleetUp 4CJ tracks and protects containers, trailers and chassis against tampering and theft.

Specifications

Dimensions (in)	7.7(W) x 4.5(L) x 1.5(H)
Weight	1.5 lbs (includes main unit, antenna, battery, shell)
Battery	15000mAh/3.7V industrial grade lithium polymer battery
GPS module	Ublox MAX-7Q
GSM module	Quectel M35
Working temperature	-4°F ~ +140°F
Average working current	<90mA
Waterproof standard	IP67
Working hours	Over 45 days if used approximately 2 hours per day
Location accuracy	< 33 ft
