## Real-time GPS tracking and vehicle health monitoring

## Product overview

FleetUp Advanced is a software solution that combines real-time GPS vehicle tracking with fuel analysis, engine diagnostics, and remote maintenance monitoring for fleets.
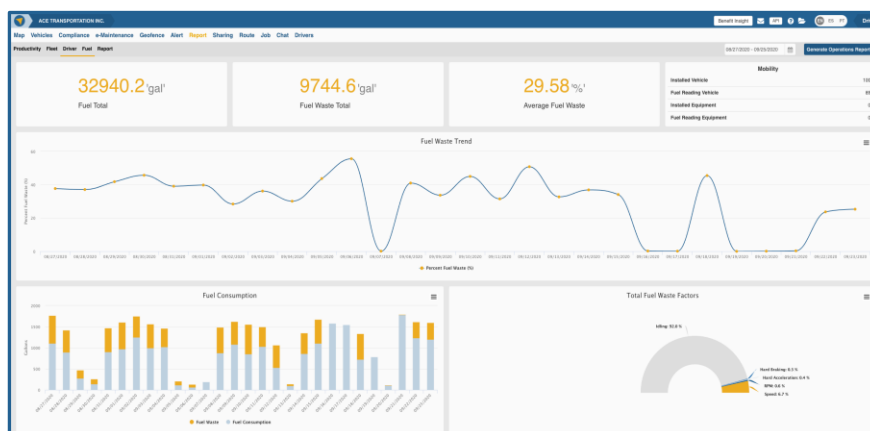

FleetUp Advanced enables fleet managers to maintain tight control over fuel and maintenance costs which typically account for over 60% of a fleet's total operating expenses.

When combined with the appropriate hardware, FleetUp Advanced enables fleet managers to remotely track all their vehicle locations and monitor the health of their entire fleet via their desktop computer or mobile device.

**FleetUp Advanced provides real-time GPS vehicle tracking and geofence status.**

**FleetUp Advanced continuously monitors vehicle health.**

## Core features

FleetUp Advanced integrates the same GPS tracking features as FleetUp Standard enabling you to manage your fleet faster operations more simply and more intuitively than ever before:
