# FLEETUP

Asset Container

Container and trailer tracking, monitoring and security

Product overview

FleetUp Asset Container is an end-to-end asset tracking solution that prevents container theft and streamlines inventory management.

FleetUp Asset Container lets you pinpoint the exact location of any container from the time it is unloaded at the shipping terminal or port of arrival until it is delivered to its final destination.

When paired with the appropriate hardware, FleetUp Asset Container informs you of any route deviations and sends real-time alerts in the event that the container lock has been tampered with during transit. FleetUp Asset Container is an indispensable tool for managing container logistics throughout the entire supply chain.

**FleetUp Asset Container tracks the location of your containers
and sends alerts if tampering or theft is detected.**
