

# FleetUp Solar Charger

Extend the battery life of 4CJ and 4CT tracking devices with the FleetUp Solar Charger.

## The FleetUp Solar Charger will:

- Keep devices charged in ideal sunlight.
- Reduce the time your team has to spend monitoring battery life and recharging devices.
- Keep FleetUp devices powered when affixed to outdoor stationary assets including generators, light towers, and more.
- Dramatically extend the battery life of devices affixed to the outside of vehicles, equipment, shipping containers, trailers, and reefers.
- Continue tracking the location of stolen assets, assisting in asset recovery with devices charged.

## Specifications

<b>Dimensions</b>	5.7(W) x 4.5(L) x 0.14(H)
<b>Weight of panel</b>	2.166 oz
<b>Solar silicon crystal</b>	Monocrystalline silicon (sun power)
<b>Floor material</b>	Glass drill plate
<b>Packaging requirements</b>	PET laminated
<b>Rated power</b>	1.5W
<b>Number of cells</b>	10
<b>Output of DC port</b>	5V 300mA
<b>Open circuit votage (Voc)</b>	5.5V
<b>Short circuit current (Isc)</b>	320mA
<b>Temperature coefficient of Isc</b>	±0.05%/°F
<b>Tempeature coefficient of Voc</b>	-0.33%/°F
<b>Temperature coefficient of Power</b>	-0.23%/°F
<b>NOCT (Nominal Operationg Cell Temperature)</b>	-113°F
