

Orbital

Mobile fleet installation services

FleetUp has partnered with Orbital Installation Technologies, a nationwide, trusted provider of mobile installation services. Established in 1996, and focused exclusively on the installation and maintenance of fleet technologies, Orbital Installation Technologies has serviced over one million fleet vehicles and assets to date.

Reliable

When you are looking for a skilled and dependable mobile installation service, you want a partner capable of supporting multiple mobile technologies, and a team that is experienced in the deployment of the latest technologies. That is why FleetUp chose Orbital. Whether you have a small local fleet or an enterprise-wide deployment of thousands of vehicles and assets, the Orbital team of experienced field installation technicians is at your service throughout the U.S. Orbital installers provide the peace of mind that comes with quality work and a well-organized deployment schedule.

Vehicles and assets

The Orbital team has extensive experience across a broad spectrum of mobile technologies and systems. They can easily adapt to shifting technology trends and customer requirements. This knowledge allows Orbital to support countless types of trucks, service vehicles, trailers, heavy equipment, and other assets to ensure that your field operations are connected, intelligent and productive.

Extensive capabilities

Orbital provides installation and maintenance service for small fleets to large enterprise fleets across the United States. Orbital supports a number of FleetUp installation services including:

- Fleet tracking / fleet telematics
- Dashcam
- ELD and compliance solutions
- Trailer and container tracking
- Heavy and light equipment tracking

Customer focused

FleetUp and Orbital are committed to provide the highest level of customer satisfaction throughout the installation lifecycle. This partnership allows FleetUp customers to take advantage of Orbital's deep industry expertise to increase the productivity of their operation.

Nationwide coverage

Orbital offers coverage across the United States. In addition to a national deployment team, Orbital Installation Technologies has local installation teams representing 75+ dispatch location hubs across the United States.

The Orbital team of installation service technicians and field installation managers are company employees, and must pass a multi-course training program. Orbital does not use subcontractors, and they work year-round to accommodate your diverse business needs.
