

# 5GT

Disposable cold chain tracker

## Product overview

The 5GT is a disposable IoT device that uses 4G connectivity for real-time asset tracking and environmental monitoring. It integrates built-in temperature and humidity sensors, ensuring comprehensive oversight without the hassles of

traditional hardware. By removing complicated installations and battery maintenance, the 5GT offers a simple yet powerful solution for end-to-end shipment security.

## Specifications

<b>Dimensions (in)</b>	3.9(W) x 2.4(L) x 0.6(H)
<b>Weight</b>	3.8oz
<b>Operating temperature</b>	-4°F ~ +158°F
<b>Operating humidity</b>	0% to 100%
<b>IP rating</b>	IP67
<b>Battery</b>	2500mAh Li-Po battery (rechargeable) 30 days life
<b>Communication</b>	4G LTE
<b>Technology</b>	GPS, BDS, LBS
<b>Accuracy</b>	<8.2ft CEP
